Portfolio Construction

The 2040 Fund seeks to invest 90% of its assets in equity mutual funds and 10% of its assets in fixed-income mutual funds. The Fund will strive to maintain such an asset mix, depending on the prevailing market conditions, until approximately 10-20 years before the stated target date. Once the Fund is within the final 10-20 years of the target date, the Fund will seek to reduce risk on a periodic basis by adjusting the Fund's ratio of equity to fixed-income mutual funds downward as the target date approaches. Upon the target date, the Fund will seek to achieve an asset allocation of 30% equity mutual funds and 70% fixed-income mutual funds.

Investment Philosophy

The StarPath Funds® investment philosophy is based on the following core beliefs for equity investing: Diversification reduces risk; Markets are efficient; Asset allocation is the key determinate of portfolio returns; Passive management is superior to active management; Asset class investing is superior to indexing. Rogers' core beliefs for fixed-income investing include: Invest in high-quality, investment grade fixed-income securities and Keep durations and maturities short to intermediate.
